

CTS Munitions for Lenco BEARCAT Gas Injector Unit

CTS price lists show CTS “NL-” variants are called out **“for Lenco Gas Injector”** (e.g., NL5210, NL5230, NL5230JL, NL5230B), indicating purpose-built versions for the GIU. These grenades are manufactured with no LOCTITE® upon request only. To order, use the “NL” designation before the desired model.

The following Models are available:

5210B **

5230B **

6340

5210

5230

5210JL

5230JL

6210

6230

8210

8230

LENCO explicitly states that CTS canisters are used with the BearCat GIU - Gas Injector Unit - to deploy CS. Officers should consult with Lenco directly to receive training and instructions on the use the CTS products with the BearCat GIU.

***All of the grenades listed can be used in the BearCat GIU. For optimum performance, safety, and minimal soiling of the GIU, the 5210B and 5230B Baffled grenades are highly recommended by CTS Product Line Specialists.*
